

Community registration for
new organizations

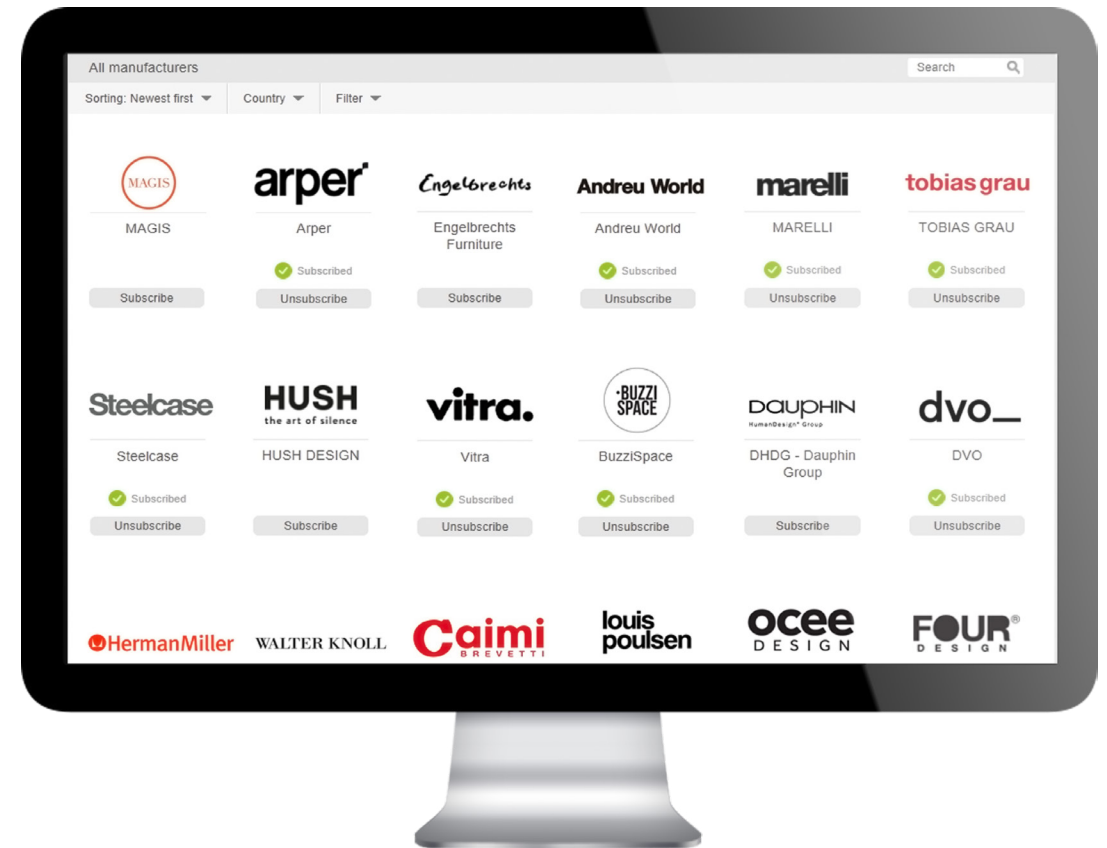

At the end of this process, your company will become part of the pCon Community.

Only **one registration per company**; in the final step, you'll see how to invite colleagues to join your organization.

You'll be able to request access to **configurable data** from hundreds of manufacturers and use free **pCon applications**, available online and offline.

For help with this process, please contact us

Click **here** to open the registration form.

Use a **professional email domain**; generic addresses (e.g. gmail) may delay approval.

Independent design professionals should enter their **professional title** followed by their name in the Organization name, for example 'Interior Designer – Jane Smith'.

Open the **confirmation email** and click the verification link. If it doesn't arrive within a few minutes, check your spam folder.

After confirming your address, you will be **redirected to pCon.login**.

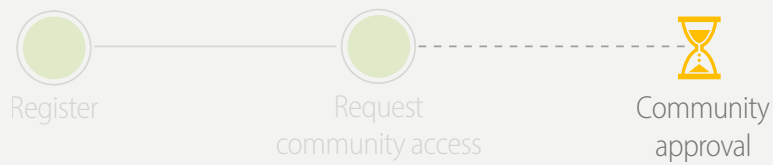

To request access to the pCon Community, open **Manufacturer catalogs** and select Request activation.

The pCon Community is **reserved for professionals**. Once approved, your company can request configurable data from hundreds of manufacturers. Please review your profile and add relevant details under Remarks, especially if you registered with a generic email address.

The top screenshot shows the pCon login page. The left sidebar contains links for Home, User (Account), Organization (Account, Users, User groups, **Manufacturer catalogs**, Applications, Licenses), Contact, and Help. The main content area is titled 'Manufacturer Catalogs' and includes a message about requesting activation for access to more than 200 manufacturers. A green arrow points to the 'Request activation' button. Below this, there are filters for 'Public catalog available', 'B2B catalog available - approved', and 'B2B catalog available - not approved'. A table lists manufacturers available in the pCon Community, including .mdd, +Halle, 2WORKFROMX, and 366 CONCEPT.

The bottom screenshot shows the user profile form. The left sidebar is the same as the top screenshot. The main content area is the 'User' profile form, which includes fields for Title*, First name*, Last name*, E-mail address*, Telephone*, Organization type*, Street/ House No.*, Zipcode*, City*, Country*, and Remarks. A green arrow points to the 'Request activation' button at the bottom right. A tooltip indicates that the user should enter their commercial e-mail address.

The pCon Community is reserved for professionals.

We **manually review each registration** and usually confirm approval by email within one working day.

Once approved, you can request configurable data.

Manufacturer Catalogs

Your request of activation for the pCon Community is **in progress**. You will receive an e-mail as soon as we are ready.

As member of the pCon Community you have access to all catalogs.

If you have questions concerning the activation, please write to pcon-community-activation@easterngraphics.com.

Welcome! Your organization is now part of the pCon Community.

Open your approval email and click **Select catalogs** to request configurable manufacturer data.

pCon.login

Dear Mr. Grilli,

Your organization [REDACTED] (Number: 27571) has been unlocked for the pCon Community. You may now request any manufacturer catalogs.

Select catalogs

Best regards,
Your pCon.login team

From the left menu, select **Schedule updates** and choose:

- **Notify if new updates are available**
- **Repeat periodically every:** 1 day
- **Execute update:** After user logon

You'll be notified whenever updates are available.

Click on **Accept**, then **Back**.

pCon.update DataClient PRO

Schedule updates

Here you may set up a notification for new updates or enable an automatic installation of new updates.

Automatic updates

☐ Disable automatic updates

☒ **Notify if new updates are available**

On the points specified below automatically a check for new updates will be done. If so, a notification message will be shown. The notification will only be performed, if the user EGR06 is logged in.

☐ Automatically install new updates ⚙️

Update schedule

Next check on: 6/19/26
